

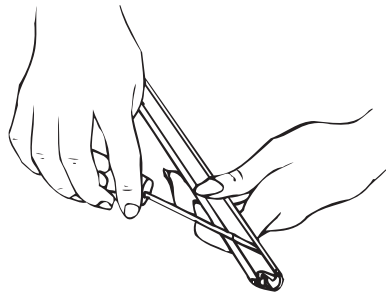

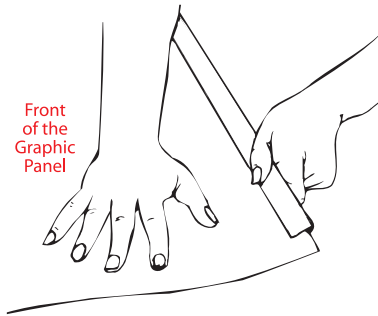

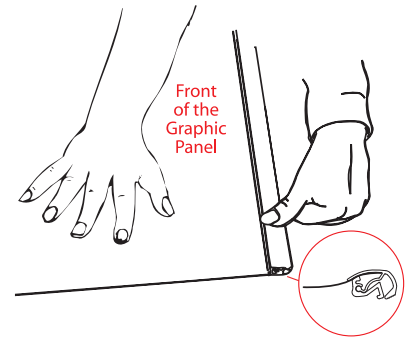

# Graphic Installation Expand MediaScreen 1

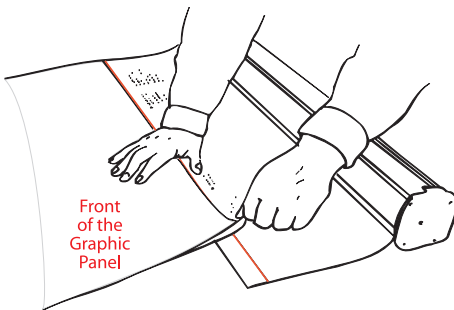

1. Use a flat blade screwdriver (or similar tool) to open the profile

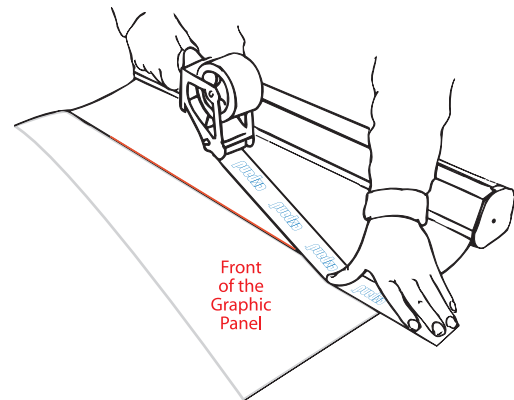

2. Slide the profile onto the graphic

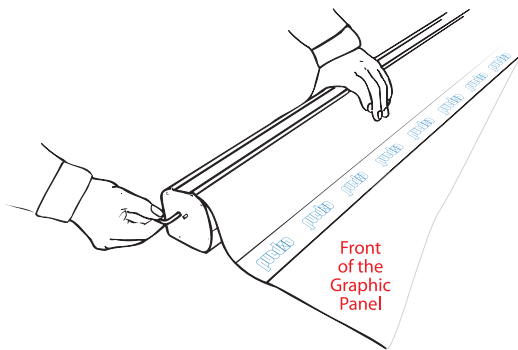

3. Press down on the profile to snap it onto the graphic

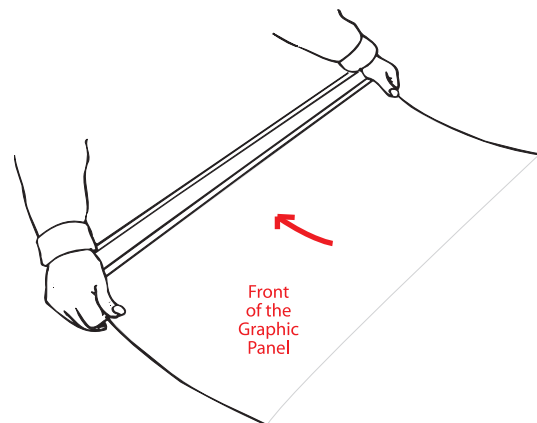

4. Remove the protective film. Apply the image with picture side upwards & position along the red line.

5. **IMPORTANT!** Apply a packing tape (like the white Expand Logo tape) over the joint.

6. Grip the image and cassette with the left hand. Remove the locking pin with the right hand.  
**THE MECHANISM IS NOW ACTIVATED**

7. With your hands, slowly allow the graphic panel to retract into the base.
